CompleteFlash™

ONE-PIECE CORNER BOOTS AND END DAMS

Fast installation - Eliminates the need for field fabrication

Use

- For masonry walls

Benefits

- Consistent, high quality corners and end dams every time
- 14" High Corner Boots extend above standard 12" high flashing
- May be purchased separately or as part of the TotalFlash Cavity Wall Drainage Solution

Product Characteristics

- Inside and outside 90° corners
- Right, left and universal end dams
- Boots and end dams formulated to seal securely to flashing membranes for leakproof installations
- Boots and end dams available in synthetic rubber/polypropylene blend, or gray Thermoplastic Polyolefin (TPO)

A simple installation process and outstanding customer support make it easy for masons to quickly install CompleteFlash 14" High Corner Boots and End Dams

Also available: BTL-1 sealant formulated specifically for use with the CompleteFlash 14" High Corner Boots & End Dams, and the TotalFlash Cavity Wall Drainage Solution.
